Information Technology & Computer Science

PROSPECTUS

“ Education is the most powerful weapon used to change the world. Our greatest responsibility as educators is to teach our students to think both intensely and critically.

By equipping our students with the right tools, knowledge and skills, they can go out into the world and shape their future.

As a Premier Digital Tech University and being a trendsetter of the private higher learning sector in Malaysia, we are steadfast in preparing our graduates for leadership roles in their respective disciplines and professions. ”

President of Multimedia University

INFORMATION TECHNOLOGY & COMPUTER SCIENCE AT MMU

If you have your passion on a career in information technology and computer science, MMU is the university for you. Listed in the Top 300 QS World University Rankings in Computer Science and Information Systems, 2017, MMU offers award-winning, practical and industry-ready degrees that will allow you to make a real and lasting impact as an ICT specialist.

Expertise and knowledge are what we seek to empower our students with. We are committed to offer programmes that will enhance your depth and perception as well as employability in the field of ICT.

Both our Faculty of Computing & Informatics and Faculty of Information Science & Technology incorporate industry-led curriculum so you will gain not only technical knowledge and skills, but also relevant soft and management skills. Many of your lecturers are professionals and specialists in their fields who will be able to impart real-life experience and solutions to your learning.

We also have strong collaborations with global industry leaders who are ready to share their knowledge of cutting-edge innovative technologies to keep you up-to-the-minute with current and future industry needs.

WHY INFORMATION TECHNOLOGY & COMPUTER SCIENCE AT MMU

Ranked World's Top 300 University for Computer Science & Information Systems

One of the best teaching labs in private universities, equipped with world-class research and teaching facilities such as SMART and Innov8 labs

Academically and professionally certified lecturers (CCNA, CCNP, MCP, MCTS, MTA and Java)

Strong collaborations with multi-national companies such as Cisco Networking Academy, Microsoft IT Academy, Oracle Workforce Development Program, Novell Academic Training Partner, Linux Professional Institute and EC-Council

ICT Knowledge Creation for **fast growing** industries

Forefront Curriculum Design and Industry Placement Opportunities to bridge **academic studies with practical experience**

AN AWARD-WINNING UNIVERSITY WITH A GLOBAL OUTLOOK

- Be part of a globally ranked university that is listed in the **QS World University Rankings** and continues to strive with solid breakthrough to be at the **170th spot in QS Asia University Rankings 2020**.
- Study alongside **more than 1,000 international students from 62 countries**.
- Experience the **best and latest technologies from our collaborations** with **major ICT players** such as ZTE, Huawei, Nokia, Intel, Microsoft, Cisco and Motorola.
- Get exposure to some of the **best practices from the world's best universities** such as MIT, Stanford, Carnegie Mellon, Harvard, USC and Tokyo University.

Ranked at 170th in

MMU's IT graduates are the
most preferred by Malaysian
firms - Frost & Sullivan Asia
Pacific (MDEC's Malaysian
Digital Talent Study 2017
Final Findings)

Premier Digital Tech University Status, 2020 Ministry of Higher
Education (MoHE) and Malaysia Digital Economy Corporation
(MDEC)

A man with dark hair and glasses, wearing a light blue button-down shirt, is standing in a server room. He is holding a laptop and looking at the screen. The server racks in the background are illuminated with blue light, and many small indicator lights are visible on the racks.

Our mission is to cultivate talents who are idea innovators, solution providers, and catalysts of change in computing and informatics.

TOP MALAYSIAN PRIVATE UNIVERSITY*

*Top 5 in **QS Asia University
Rankings 2020** among private
universities in Malaysia.

In this constantly evolving digital world, Information and Communication Technology is more important than ever. As ICT continues to transform the way people communicate, learn, work and play, the career prospects for IT graduates are both diverse and rewarding. Whether it's Artificial Intelligence, Data Science, Security Technology or Software Engineering, a degree from MMU will definitely hold you in good stead for the future.

AN ENTREPRENEURIAL UNIVERSITY WITH INDUSTRY-READY PROGRAMMES

Well-rounded Education

Be empowered with the fundamentals of your field of study that also incorporate entrepreneurial skills and expertise which are relevant to your respective industries and job markets.

Industry on Campus

Be connected and gain benefit from our state-of-the-art labs established by our industry collaboration with ZTE, HUAWEI, Microsoft, Intel and many more.

Ready for Industry

Be enthused with Start-up Schemes from the Entrepreneur Development Centre (EDC) and nurture your entrepreneurship mindset.

A UNIVERSITY THAT IS AN INDUSTRY TRENDSETTER

- We offer programmes which are tailored to the industry's needs.
- Nearly 50% of our programmes are developed for fast growing industries.
- We produce graduates who are setting new standards in Malaysia's industries. Among our successful alumni are Mohd Nizam Abd Razak (the creator of BoBoiBoy, who has boosted the animation industry in Malaysia), Muhammad Usamah Zaid Yasin (Founder & Executive Director of Wau Animation that produces Ejen Ali), Tan Aik Keong (Director of Agmo Studio, a multi-award winning mobile app development company), Ko Chuan Zhen (CEO and co-founder of Plus Solar Systems, a multi-award winning clean energy company in Malaysia) and many more.

One of the university's primary objectives is to be able to **inspire & innovate others.**

We understand that the future lies in technology, and we are adamant to help shape people who will help make a better tomorrow.

A VIBRANT AND CONDUCTIVE CAMPUS LIFE

- Convenient and comfortable accommodation – on-campus and off-campus.
- Intelligent and high-tech labs.
- Digital libraries.
- Set studio and post-production suite.
- Over 100 clubs and societies.
- Extensive infrastructure – campus-wide Wi-Fi, health clinics, mosques, 24-hour security, food & beverage outlets and more.
- Comprehensive Sports Centre – track & field, indoor sports arena, gym as well as an olympic-sized swimming pool.

MMU Alumni

“

The ambience and culture cultivated in MMU had shaped me to become as Head of Big Data Analytics in Fusionex, a multi-award-winning organization specialising Big Data, Machine Learning and Artificial Intelligence. MMU collaborates with many big industry players such as Microsoft, IBM, Oracle etc and organise many workshops allowing students like me to have the opportunity to be exposed and learn of new technology during the school days, which allowing me to be equipped with new skill sets on top of the solid computing foundation the university is shaping us at.

”

Gan Chun Yee

*Bachelor of Information Technology (Honours)
(Software Engineering) (2003)*

Head of Big Data Analytics, Fusionex

MMU Alumni

“

Navigating the complexity of today's corporate world requires not only technical capabilities but also interpersonal and leadership skills. MMU provided me the much needed early exposure through its academic programs as well as the platform for me to lead and participate beyond my studies. I am grateful for the experience gained during this critical foundation period. MMU is the best choice for students to further their studies as it has proven itself by producing many high quality graduates that are now contributing to the country and society.

”

Iskandar Shah Zulkarnain

*Bachelor of Information Technology (Honours)
(Information Systems Engineering) (2004)*

*Chief Human Resources Officer
Bank Islam Malaysia*

FACULTY OF COMPUTING AND INFORMATICS

Located within Cyberjaya and built on an 80-hectare plot of land, MMU Cyberjaya is equipped with various intelligent features such as multimedia learning facilities, intelligent building systems, a digital library, and an integrated campus management system designed to nurture innovative management graduates.

This is an AR marker. Scan the image to watch the video / or view 360 video.

FOUNDATION IN INFORMATION TECHNOLOGY (R2/010/3/0088) 12/22 (A8670)

In an ever-changing, technologically-dependent world, our one-year Foundation in Information Technology programme aims to produce students who are well-equipped with computer skills as well as mathematical and problem solving skills. The Foundation in Information Technology programme is delivered through engaging lectures and laboratory work which serve to build knowledge and help develop practical skills. After completion of the foundation programme, you can opt for a degree programme from either the Faculty of Computing and Informatics (FCI) or Faculty of Information Science and Technology (FIST).

PROGRAMME STRUCTURE

Trimester 1	Trimester 2	Trimester 3
<ul style="list-style-type: none"> Introduction to Business Management Introduction to Computing Technologies Communicative English Mathematics I Problem Solving and Program Design 	<ul style="list-style-type: none"> Critical Thinking Introduction to Digital Systems Essential English Multimedia Fundamentals Mathematics II Principles of Physics 	<ul style="list-style-type: none"> Academic English Mathematics III Mini IT Project

BACHELOR OF COMPUTER SCIENCE (HONS.) (R2/481/6/0531) 02/25 (A5830)

This three-year programme equips students with fundamental computing knowledge and the latest technology. In year 1, all students learn common subjects before specialising in one of the following areas – Software Engineering, Game Development or Data Science – in the second year. Each designed specialisation prepares students with specific skills. Students will also complete a final year project and undergo industrial training to acquire practical industry experience.

Career Prospects: *Researcher, Programmer, Software Development, Project Manager, System Analyst, Database Administrator, IS/SE Consultant, Game Producer, Game Artist & Visualiser, Data Analyst, Data Scientist, Data Engineer.*

BACHELOR OF COMPUTER SCIENCE (HONS.) (R2/481/6/0531) 02/25 (A5830)

Specialisations:

- **Software Engineering:** Focuses on designing and developing software systems with innovative methodologies and sophisticated tools. Students are exposed to various techniques of analysing user requirements and specifications, as well as the design, implementation and verification of software systems.
- **Game Development:** Integrates fundamental concepts of software engineering with both technical and creative aspects of game design and development. Students are exposed to various types of game production - from 2D to 3D, and from virtual to augmented reality game projects.
- **Data Science:** Focuses on designing and developing solutions to draw useful insights from the availability of large volumes of data, known as Big Data. Students will receive fundamental training in computer science theories and learn techniques on the processing of Big Data for analytics that can be impactful to business.

SPECIALISATION ELECTIVE MODULES

Two (2) subjects should be taken from the following based on specialisation:

Software Engineering	Game Development	Data Science
<ul style="list-style-type: none"> ▪ Theory of Computation ▪ Introduction to Formal Methods 	<ul style="list-style-type: none"> ▪ Programming Language Translation ▪ Software Evolution & Maintenance ▪ Game Production ▪ Game Physics 	<ul style="list-style-type: none"> ▪ Data Management ▪ Visual Information Processing ▪ Social Media Computing

BACHELOR OF INFORMATION TECHNOLOGY (HONS) (INFORMATION SYSTEMS) (R2/481/6/0388) 06/24 (A5216)

In this information-driven 21st century, computerised information systems play key roles to the success of organisations. Hence, there is an increasing demand for information systems graduates that are capable to design, develop and implement effective digital solutions to meet the needs for information and decision support of organisations.

This three-year programme prepares students with a strong foundation in applications development of information systems as well as current and emerging technologies related to information systems. The knowledge and skills are essential not only in using information systems effectively, but also to contribute significantly in planning, designing, implementing and maintaining information systems solutions for critical business problems. Graduates of this programme will take the leading roles in shaping our information-driven future.

Career Prospects: Application Developer, Database Administrator, Business Analyst, IT Consultant, Information Systems Manager.

FOUNDATION IN LIFE SCIENCE (R/010/3/0293) 04/20 (A6686)

The Foundation in Life Science programme is a one-year pre-university programme delivered through engaging lectures, designed to guide students to actively seek knowledge. In this programme, lectures are supplemented with laboratory work to help students develop their practical skills, working confidence and ability to work effectively in a group. Collectively, these subjects provide a holistic, inspiring and balanced educational experience which equip students with a solid foundation for higher levels of learning and nurture their potential for future academic excellence at the tertiary level.

After completion of the Foundation in Life Science programme, you can opt for the Bachelor of Science (Hons.) (Bioinformatics) degree programme.

BACHELOR OF INFORMATION TECHNOLOGY (HONS.) (DATA COMMUNICATIONS AND NETWORKING) (R2/481/6/0440) 08/24 (A5313)

Data Communications and Networking graduates are expected to possess the knowledge and skills necessary to design, build, maintain and manage network and communication systems in any organisation. Therefore, this three-year programme will educate them on the core components of communication, such as Internet Computing, TCP/IP Programming, High-Speed Networks, Client Server Computing and Real-Time Systems.

Our Data Communications and Networking graduates would be able to branch into any area of communications and apply the knowledge they have acquired in network technology and telecommunications.

Career Prospects: System Programmer, Network Engineer, Network Administrator.

BACHELOR OF INFORMATION TECHNOLOGY (HONS.) (BUSINESS INTELLIGENCE AND ANALYTICS) (R2/481/6/0079) 11/21 (A7498)

Today, large quantity of information is produced from various sources rapidly everyday. This poses a challenge to corporations because without the accurate information, effective decisions cannot be made. Businesses are interested in the big data as they provide new acumen in different areas for instance customers, sales and marketing.

This three-year programme equips students with business intelligence and analytical skills to offer insights and improved decision making to corporations in achieving business agility. The objective is to produce graduates who are knowledgeable in the components of information technology and data analytics, capable to plan, design, visualise, analyse and interpret business statistical data.

Career Prospects: *SAP Specialist, Data Scientist, Computer Scientist, Knowledge Engineer, Business Intelligence Consultant, IT Business Analyst and Web Analyst.*

BACHELOR OF COMPUTER SCIENCE (HONS.) (ARTIFICIAL INTELLIGENCE) (R2/481/6/0786) 08/23 (A4187)

As computer systems increase their complexity and sophistication, the demand for intelligent advanced applications also increases in proportion. It is now common practice to incorporate intelligent capabilities in the design of any computer application, from web-based intelligent search engines to standalone intelligent applications.

The objective of this three-year degree programme is to equip students with the necessary knowledge and skills required to be successful in building the much-needed intelligent computer systems.

Career Prospects: *Data Scientist, Intelligent Software Developer, AI Consultant, Knowledge Engineer, Machine Learning Engineer, Computer Vision Engineer and Big Data Architect.*

BACHELOR OF INFORMATION TECHNOLOGY (HONS.) (SECURITY TECHNOLOGY) (R2/481/6/0439) 08/24 (A5470)

The Security Technology programme is designed to develop knowledge and skills in the security management and technologies necessary for employment in areas such as government and corporate security, strategic facilities security, private sector and retail security, financial institutions and major security organisations.

The course emphasises the functions and management of security technology in the protection of assets and is supported by appropriate studies in cyber law and ethics. Graduates of this course will be equipped for a career in the security industry.

Career Prospects : *Security Auditor, Security Penetration Tester, Computer Forensic Investigator, Software Engineer, Systems Analyst, and Programmer.*

BACHELOR OF SCIENCE (HONS.) (BIOINFORMATICS) (R/481/6/0708) 02/21 (A6684)

Bioinformatics is dynamic and evolving, representing one of the most rapidly growing and challenging areas in science and technology today.

The MMU Bioinformatics programme is a balance of IT and Life Science plus training in specific applications. A significant component of our programme is practical laboratory experience and problem-based learning, alongside student presentations and lectures in small classes. Projects and Industry experience add another dimension to the knowledge gained in lectures.

Career Prospects: *Bioinformatician, Biology Researcher in the health care industry, biomedical, pharmaceutical and biotechnology companies, agricultural industry, environmental management industry, forensics centre, research institutions and universities.*

DIPLOMA IN INFORMATION TECHNOLOGY

(R2/481/4/0229) 12/22 (A8553)

(R2/481/4/0010) 07/21 (A7461)

The programme provides students with computing knowledge in planning, implementation, configuration and maintenance of an organisation's computing infrastructure. Students will be exposed to various programming languages and web technologies with which they would be able to configure, integrate and deploy systems as well as provide technical support within an organisation.

The curriculum covers areas such as programming, database, software design, operating systems, data communication & networking, as well as mathematics. Apart from the technical subjects, students will also be exposed to soft skills such as writing and presentation skills to help enhance their interaction and communication and prepare them for real-life working environment.

After completion of the diploma programme, you can opt for a related degree programme from either FCI or FIST.

MINIMUM ENTRY REQUIREMENTS

Foundation in Information Technology

- Pass SPM/O-Level or its equivalent with a minimum of Grade C in at least five (5) subjects inclusive of Mathematics and English; OR
- Pass UEC with a minimum of Grade B in at least four (4) subjects inclusive of Mathematics and English; OR
- Other equivalent qualification recognised by the Malaysian Government.

Additional Requirement to pursue Bachelor of Computer Science (Honours):

- (a) A Credit in Additional Mathematics at SPM Level or its equivalent; OR
- (b) A Credit in Mathematics AND one Science/Technology/Engineering subject at SPM Level or its equivalent.

Note : Candidate (b) is required to pass the reinforcement of Mathematics subject prior to pursuing to degree programme. However, the reinforcement of Mathematics subject can be exempted if the Foundation/Matriculation studies contain subjects in Mathematics and the achievement is higher or equivalent to the requirement of the Additional Mathematics at SPM level or its equivalent.

Foundation in Life Science

- Pass SPM/O-level or its equivalent with minimum of Grade C in at least five (5) subjects, inclusive of Mathematics, English and any two (2) Science subjects; OR
- Pass UEC with minimum of Grade B in at least four (4) subjects inclusive of Mathematics and one of the Science subjects; OR
- Other equivalent qualification recognised by the Malaysian Government.

Diploma in Information Technology

- Pass SPM/O-Level or its equivalent with a minimum of Grade C in at least three (3) subjects inclusive of Mathematics and a Pass in English; OR
- Pass UEC with a minimum of Grade B in at least three (3) subjects inclusive of Mathematics and a Pass in English; OR
- Pass STPM or its equivalent with a minimum of Grade C (GP 2.00) in one (1) subject AND a Credit in Mathematics at SPM Level or its equivalent; OR
- Pass STAM with a minimum Grade of Maqbul (Pass) AND a Credit in Mathematics at SPM Level or its equivalent; OR
- Pass in any qualifications equivalent to Certificate (Level 3, MQF) AND a Credit in Mathematics at SPM Level or its equivalent. *

**Candidates without a Credit in Mathematics at SPM Level or its equivalent may be admitted if the Certificate programme contains subjects in Mathematics that are equivalent to Mathematics at SPM Level.*

Bachelor of Computer Science (Hons.) (Software Engineering, Information Systems, Game Development and Data Sciences) Bachelor of Computer Science (Hons.) (Artificial Intelligence)

- Pass Foundation/Matriculation studies from a recognised institution, AND
 - (a) a Credit in Additional Mathematics at SPM Level or its equivalent; OR
 - (b) a Credit in Mathematics AND one Science/Technology/Engineering subject at SPM Level or its equivalent.
- Pass STPM in Science Stream or its equivalent with a minimum of Grade C (GP 2.00) inclusive of Mathematics and one Science/ ICT subject; OR
- Pass A-Level with a minimum of Grade D in Mathematics and one Science/ICT subject; OR
- Pass UEC with a minimum of Grade B in at least five (5) subjects inclusive of Mathematics, English and one Science/ICT subject; OR
- Diploma in Computer Science OR Software Engineering OR Information Technology OR Information Systems or equivalent with a minimum CGPA of 2.50; OR
- Diploma in Science and Technology from a recognised institution with a minimum CGPA of 2.50;

Note : Candidates with CGPA below 2.50 but above 2.00 may be admitted subject to a rigorous internal assessment process.

MINIMUM ENTRY REQUIREMENTS

Bachelor of Information Technology (Hons.) (Information System, Data Communication and Networking, Security Technology and Business Intelligence and Analytics)

- Pass Foundation/Matriculation studies in related field from a recognised institution, and a Credit in Mathematics at SPM Level or its equivalent; OR
- Pass STPM or its equivalent with a minimum Grade C (GP 2.00) in any two (2) subjects AND a Credit in Mathematics at SPM Level or its equivalent; OR
- Pass A-Level with a minimum of Grade D in any 2 subjects AND a Credit in Mathematics at SPM Level or its equivalent; OR
- Pass UEC with a minimum of Grade B in at least five (5) subjects inclusive of Mathematics and English; OR
- Diploma in Computer Science OR Software Engineering OR Information Technology OR Information Systems or equivalent with a minimum CGPA of 2.50 and a Credit in Mathematics at SPM Level or its equivalent; *

**Candidates with CGPA below 2.50 but above 2.00 may be admitted subject to a rigorous internal assessment process. OR*

- Any other Diploma in Science and Technology or Business Studies with a minimum CGPA of 2.5 may be admitted, subject to a rigorous internal assessment process and a Credit in Mathematics at SPM Level or its equivalent.

Note : Candidates without a Credit in Mathematics at SPM Level or its equivalent may be admitted if the qualification contains subjects in Mathematics and the achievement is higher or equivalent to the requirement of the subject at SPM Level or its equivalent.

Bachelor of Science (Hons.) (Bioinformatics)

- Pass Foundation / Matriculation studies in related field from a recognised institution, and a Credit in Mathematics at SPM Level or its equivalent; OR
- Pass STPM or its equivalent with a minimum Grade C (GP 2.00) in any two (2) subjects AND a Credit in Mathematics in SPM or Grade C in STPM or its equivalent; OR
- Pass A-Level with a minimum of Grade D in any two (2) Subjects AND a Credit in Mathematics in SPM or Grade D in A Level or its equivalent; OR
- Pass UEC with a minimum of Grade B in at least five (5) subjects inclusive of Mathematics and English; OR
- Diploma in Computer Science OR Software Engineering OR Information Technology OR Information Systems or equivalent with a minimum CGPA of 2.50 and a Credit in Mathematics at SPM Level or its equivalent; *

**Candidates with CGPA below 2.50 but above 2.00 may be admitted subject to a rigorous internal assessment process. OR*

- Any other Diploma in Science and Technology or Business Studies with a minimum CGPA of 2.50 may be admitted, subject to a rigorous internal assessment process and a Credit in Mathematics at SPM Level or its equivalent.

Note : Candidates without a Credit in Mathematics at SPM Level or its equivalent may be admitted if the qualification contains subjects in Mathematics and the achievement is higher or equivalent to the requirement of the subject at SPM Level or its equivalent.
