# WELCOME TO MMU!

Welcome to Multimedia University (MMU).

Choosing a university is an important milestone that marks the beginning of a meaningful academic and personal journey. At MMU, we are committed to providing an education that not only builds academic excellence but also nurtures character, confidence, and purpose.

Our programmes are designed to prepare students for a rapidly evolving world. Through a strong emphasis on industry engagement, hands-on learning, and innovative teaching, we ensure that our graduates are equipped with the knowledge, skills, and adaptability needed to succeed in their chosen fields.

Beyond academics, MMU offers a supportive and inclusive campus environment where students are encouraged to discover their strengths, pursue their passions, and grow as responsible global citizens. We take pride in fostering a community that values creativity, critical thinking, and lifelong learning.

We look forward to welcoming you into the MMU family and supporting you every step of the way.

Thank you.

**Prof. Dato' Dr. Mazliham Mohd Su'ud**  
President/Chief Executive Officer  
Multimedia University

# AN AWARD-WINNING UNIVERSITY WITH A GLOBAL OUTLOOK

Your success begins here!

Multimedia University (MMU) is a leading university in Malaysia and we are also listed in global rankings namely QS World University Rankings 2026 and Times Higher Education (THE) World University Rankings 2026. # RESEARCH-LED INDUSTRY-DRIVEN UNIVERSITY

As a research-led, industry-driven university, MMU organises its research activities under 7 dynamic Centres of Excellence (COE) which are the COE for Advanced Cloud, COE for Artificial Intelligence, COE for Intelligent Network, COE for Immersive Experience, COE for Robotics and Sensing Technologies, COE for Sustainability and Governance, and COE for Business Innovation and Communication.

Within these COEs, various research centres and labs exist to drive the research activities in these COEs and they work seamlessly across labs and COEs to conduct impactful research. These research centres and labs have dedicated physical facilities and spaces as well as administrative and professional support staff.

At MMU, we actively foster strong academia-industry collaborations to ensure our students are industry-ready and future-focused.

## PREPARING GRADUATES TO BE INDUSTRY READY AND VERSATILE

### Gaining Industrial Experience Via I-CADET

The i-Cadet Programme is an initiative of MMU's Industry-University Partnership Programme, which aims to groom students into industry-ready graduates from the moment they began their degree programmes.

Through this initiative, MMU students would be groomed into industry-ready graduates tailored for their industries of choice. The programme will match students with suitable companies, and then, via a series of meetings and projects, would provide them with the actual working environment within their chosen company.

### Developing Well Balanced Graduates Through PERMATA DUNIA PERSONA

MMU is deeply involved with the proper development and realization of human capital potential, as this would enable the university to satisfy the needs of the industries for capable manpower.

Our goal is to produce well-balanced graduates of good character that possess desirable qualities, such as having empathy, sensitivity, creativity, readiness, and resilience, as well as having sufficient technical competence. Such graduates from MMU are referred to as our Permata Dunia, and we are confident that such personages would become capable future leaders for their nation as well as their communities.

We contend that MMU is the best place for student development as we continually strive to bring out the best in each student; we imbue in them with deep knowledge of their respective fields of expertise via lectures, co-curricular activities, development initiatives, and lifestyle choices. MMU is fully committed to making every student's time in the university the best time of their lives.

### Expanding Horizon With BYOC

Build Your Own Curriculum (BYOC) is a concept to enable students to imbue additional value into their graduation qualifications so that, upon completion of their studies, they would have better chances of having a career path that is not just financially rewarding, but also fulfilling.

The key to BYOC is allowing students to build curriculum in a guided and yet flexible way. Students may stack up courses based on the free elective slots they have, or by choosing a collective minor package offered by the faculties.

### Fostering Future Entrepreneurs through eCadet

Our university is dedicated to nurturing dynamic and resilient student entrepreneurs, empowering them to become founders of high-value startups. Through the eCadet initiative, students will receive early exposure and invaluable insights into the realities of the business world and its ecosystem.

They will have the opportunity to cultivate professional networks, receive expert guidance, and enhance their startup skills by connecting with startups, companies, agencies, and accelerators.

### Well-rounded Education

Gain a solid foundation in your field while developing entrepreneurial skills and industry-relevant expertise, equipping you to thrive in today's competitive job market.

### Industry on Campus

Benefit from direct access to our state-of-the-art labs, established through partnerships with leading global companies such as ZTE, HUAWEI, Microsoft, Intel, MCMC, AGMO Studio and many more.

### Industry-Aligned Programmes

Our programmes are carefully designed to meet industry requirements, ensuring that your learning is directly applicable to real-world careers.

### Ready for Industry

Ignite your entrepreneurial mindset through start-up initiatives from our Entrepreneurship Development Centre (EDC), giving you the tools and experience to innovate and succeed in real-world industries.

### Industry-Leading Alumni

Join the ranks of our alumni who have become trendsetters and leaders in Malaysia's industries, shaping innovation and inspiring the next generation of professionals.
